Note to readers with disabilities: EHP strives to ensure that all journal content is accessible to all readers. However, some figures and Supplemental Material published in EHP articles may not conform to 508 standards due to the complexity of the information being presented. If you need assistance accessing journal content, please contact ehp508@niehs.nih.gov. Our staff will work with you to assess and meet your accessibility needs within 3 working days.

Supplemental Material

Occupational Exposure to Pesticides and the Incidence of Lung Cancer in the Agricultural Health Study

Table of Contents

Table S1. Lung cancer risk among applicators by lifetime exposure-days of indicated pesticide, stratified by smoking status, Agricultural Health Study

Table S2. Lung cancer risk among applicators by lifetime exposure-days of indicated pesticide, stratified by histology, Agricultural Health Study

Table S3. Hazard ratios and 95% confidence limits for lung cancer by lifetime days of pesticide exposure and intensity-weighted lifetime exposure to 30 pesticides, Agricultural Health Study
