Table S1: Comprehensive search strategies for PubMed and EMBASE

Table S2: Authors which have been contacted because of unclear/missing data

Table S3: Study characteristics of the included studies

Table S4: Risk of Bias and methodological quality of the included studies

Figure S1: Forest plot of the overall summary estimate of the association of BPA exposure with body weight

Figure S2: Forest plot of the overall summary estimate of the association of BPA exposure with fat weight

Figure S3: Forest plot of the overall summary estimate of the association of BPA exposure with triglycerides

Figure S4: Forest plot of the overall summary estimate of the association of BPA exposure with free fatty acids

Figure S5: Forest plot of the overall summary estimate of the association of BPA exposure with leptin

Figure S6: Funnel plots of outcome measures which contained at least 10 different studies, including body weight in MDs (A) and fat weight in SMDs (B).
