Supplemental Material

Decomposition Analysis of Black–White Disparities in Birth Outcomes: The Relative Contribution of Air Pollution and Social Factors in California

Tarik Benmarhnia, Jonathan Huang, Rupa Basu, Jun Wu, and Tim A. Bruckner

Table of Contents

Table S1: Neighborhood socioeconomic and air pollution descriptive statistics

Table S2: Pearson’s correlation coefficients between measures of neighborhood socioeconomic environment

Table S3: Adjusted risk ratios and adjusted risk differences representing associations between preterm birth with all the individual, neighborhood and air pollution variables

Table S4: Adjusted risk ratios and adjusted risk differences representing associations between very preterm birth with all the individual, neighborhood and air pollution variables

Table S5: Adjusted risk ratios and adjusted risk differences representing associations between small for gestational age with all the individual, neighborhood and air pollution variables

Table S6: Portion of non-Hispanic Black-White disparities in PTB, vPTB, and SGA explained by neighborhood socioeconomic environment using a composite index (California 2005-2010).
