Supplemental Material

Integrated Social-Behavioral and Ecological Risk Maps to Prioritize Local Public Health Responses to Lyme Diseases

Catherine Bouchard, Cécile Aenishaenslin, Erin E. Rees, Jules K. Koffi, Yann Pelcat, Marion Ripoche, François Milord, L. Robbin Lindsay, Nicholas H. Ogden, and Patrick A. Leighton

Table of Contents

**Figure S1.** Map of significant (p < 0.05) spatial clusters and outliers of survey participant-level global preventive behavior score (GPB) in Montérégie, Canada (2012).

**Figure S2.** Map of significant (p < 0.05) spatial clusters and outliers of survey participant level global knowledge score (GK) in Montérégie, Canada (2012).

**Figure S3.** Map of significant (p < 0.05) spatial clusters and outliers of survey participant level global risk perception score (GK) in Montérégie, Canada (2012).

**Table S1.** Cross validation results for each social-behavioral risk factor (only the Mean and Root Mean Square Error results are available for IDW).
