Note to Readers: *EHP* strives to ensure that all journal content is accessible to all readers. However, some figures and Supplemental Material published in *EHP* articles may not conform to 508 standards due to the complexity of the information being presented. If you need assistance accessing journal content, please contact ehp508@niehs.nih.gov. Our staff will work with you to assess and meet your accessibility needs within 3 working days.

**Supplemental Material**

**A Standard of Knowledge for the Professional Practice of Toxicology**

Janis E. Hulla, Lewis B. Kinter, and Bruce Kelman

**Table of Contents**

*Figure S1.* Target Organ Toxicology. A: Distribution of rankings for the knowledge domain, Target Organ Toxicology. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).

*Figure S2.* Non-Organ Directed Toxicity. A: Distribution of rankings for the knowledge domain, Non-Organ Directed Toxicity. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).

*Figure S3.* Toxic Agents. A: Distribution of rankings for the knowledge domain, Toxic Agents. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).

*Figure S4.* Applications of Toxicology. A: Distribution of rankings for the knowledge domain, Applications of Toxicology. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).

*Figure S5.* Methods in Toxicology. A: Distribution of rankings for the knowledge domain, Methods in Toxicology. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).
Figure S1. Target Organ Toxicology. A: Distribution of rankings for the knowledge domain, Target Organ Toxicology. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).
Figure S2. Non-Organ Directed Toxicity. A: Distribution of rankings for the knowledge domain, Non-Organ Directed Toxicity. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).
Figure S3. Toxic Agents. A: Distribution of rankings for the knowledge domain, Toxic Agents. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).
**Figure S4.** Applications of Toxicology. A: Distribution of rankings for the knowledge domain, Applications of Toxicology. B: Majority (≥50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).
Figure S5. Methods in Toxicology. A: Distribution of rankings for the knowledge domain, Methods in Toxicology. B: Majority ($\geq$50%) ranking of knowledge elements within the domain by the specific employment sectors (left) and years of experience of the survey participants (right).
